

Assignment 02: Input/Output/Conditionals

Note: The last date of submission is 14-December-2020

1. Write a program that convert the number (upto 3 digits) into words and speech. Use the following code to integrate sound API (application programming interface).

```
#include <windows.h>
#include <stdlib.h>

using namespace std;

int main()
{
    PlaySound("C:/WINDOWS/Media/ding.wav", NULL, SND_FILENAME);

    system("PAUSE");
    return 0;
}
```
